Status: Downloaded newer image for dockercloud/cli:latest
usage: docker-cloud [-h] [-v]
                    {action,container,event,exec,login,node,nodecluster,repository,run,service,stack,tag,trigger,up}
```

Docker Cloud CLI

optional arguments:

-h, --help	show this help message and exit
-v, --version	show program's version number and exit

Docker Cloud CLI commands:

{action,container,event,exec,login,node,nodecluster,repository,run,service,stack,tag,trigger,up}

action	Action-related operations
container	Container-related operations
event	Get real time Docker Cloud events
exec	Run a command in a running container
login	Please use "docker login" to log into Docker Cloud
node	Node-related operations
nodecluster	NodeCluster-related operations
repository	Repository-related operations
run	Create and run a new service
service	Service-related operations
stack	Stack-related operations
tag	Tag-related operations
trigger	Trigger-related operations
up	Create and deploy a stack
