Question-5:

Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page

Solution:

The screenshot displays a web browser window with the address bar showing "File | C:/Users/Lenovo/Desktop/bot.html". The main content area features a section titled "HTML Forms" with two input fields: "First name:" containing the text "cloud" and "Last name:" containing the text "bot". Below these fields is a "Submit" button. A text instruction states: "If you click the 'Submit' button, the form-data will be sent to a page called 'action_page.php'."

Overlaid on the right side of the browser window is a mobile application interface for "Watson Assistant". The app has a pink header with a home icon and the text "Watson Assistant". A chat bubble from "healthbot" contains the text "Make your appointment?". Below this, there are two buttons: "Yes" and "No". At the bottom of the chat interface is a text input field with the placeholder "Type something..." and a send button. The footer of the app states "Built with IBM Watson®".

At the bottom of the screenshot is the Windows taskbar, showing the search bar with the text "Type here to search", several application icons, and the system tray displaying "31°C", "22:05", and "17-10-2022".
